

March 30, 2020

COVID-19 Task Force,

Thank you for your detailed and clear message.

We removed the content referenced in your letter:

~~“Will you get Coronavirus? . . . 6 steps for protection from the Coronavirus . . . Build up your immunity with foods rich in antioxidants and bioactive protection such as Carbon 60 (C60)”~~

~~• “[B]oth the flu and Coronavirus illness thrive on individuals with weakened immune systems . . . Coronavirus is scary, but the flu is deadlier and more widespread. Those who get very ill or die have weakened immune systems. Have the highest probability of staying healthy by making your immune system the strongest possible. FullerLifeC60 does this for just a dollar a day (plus shipping) . . . The stronger your immune system is the less likely you are to get sick. C60 improves the efficiency of mitochondria inside your cell and thereby enhances your immune system to better defend against infection.”~~

We have removed **ALL** references to COVID-19 and Coronavirus from our web site and other marketing materials, product labels, product inserts and other relevant media.

We have reviewed and amended product statements as well throughout our online and printed materials to comply with FDA rules and guidelines.

Our web site footer and product label displays the following text:

“C60 has not been evaluated by the Food and Drug Administration. BioActiveC60 is not intended to diagnose, treat, cure or prevent any disease. Please consult with your physician or healthcare provider for medical advice. If you are pregnant, nursing or considering becoming pregnant, please do not consume this product.”

If there is any other information we can provide to support this process, please let me know.

With gratitude,

Fred Marshall Thurber
